## EDUCATION

### Galgotias University

B.Tech – Computer Science and Engineering | **CGPA: 7.5**

Greater Noida, Uttar Pradesh

2022 – Present

### C.M.J Institute of Education

12th – CBSE | **Percentage: 71.40%**

Motihari, Bihar

2020 – 2022

### C.M.J Institute of Education

10th – CBSE | **Percentage: 62%**

Motihari, Bihar

2019 – 2020

## COURSEWORK

- DSA (Java)
- DBMS (SQL)
- OOPs Concepts
- Operating Systems
- Web Development
- Version Control (Git)

## TECHNICAL SKILLS

**Programming Languages:** JavaScript, SQL, Python, Java, HTML, CSS

**Frameworks & Libraries:** React.js, Tailwind CSS, Bootstrap, Flask, Node.js, Express.js, TensorFlow, Keras

**Tools & Platforms:** MySQL, MongoDB, Git, GitHub, Docker, Visual Studio Code, Eclipse

**Soft Skills:** Team Work, Communication, Multitasking, Time Management, Leadership

## PROJECTS

### KHETI-BADI – AI-Powered Smart Farming & Crop Advisory Platform |

2025

- Developed a full-stack smart farming platform using React.js, Bootstrap, Flask, and Node.js to support data-driven agricultural decision-making.
- Built a CNN-based plant disease detection system using TensorFlow/Keras and integrated Gemini AI chatbot to provide disease diagnosis, treatment recommendations, and crop advisory.
- Implemented weather forecasting, 5-week irrigation planning, and AI-powered farming suggestions to optimize crop management and productivity.
- Developed a community disease mapping feature using Google Maps API, enabling farmers to report and track nearby crop disease outbreaks.
- Created a crop profit prediction module that estimates profitability based on soil conditions, crop type, and farm area.

### Ashraye Hotel Booking Platform | React.js, Tailwind CSS, Node.js, MongoDB

2026

- Designed and developed a full-stack hotel booking application enabling users to search, browse, and reserve hotel rooms based on availability and preferences. Implemented secure user authentication and authorization, room management, booking history, and reservation tracking functionalities. Built an admin dashboard for managing rooms, bookings, and customer information, improving operational efficiency. Developed RESTful APIs and integrated a database for seamless handling of user, room, and reservation data. Delivered an end-to-end solution demonstrating expertise in full-stack development, database management, and responsive web application design.

### Weather Forecasting Web App | HTML, CSS, JavaScript, OpenWeatherMap API

2024

- Designed a responsive weather forecasting web application using HTML, CSS, and JavaScript. Integrated OpenWeatherMap API to fetch and display real-time weather data including temperature, humidity, and wind speed for any searched city.

## ACHIEVEMENTS

- Competitive coding on LeetCode – consistent problem-solving practice in Data Structures and Algorithms.
- Served as Vice President (Tech Lead) of the Galgotias Tech Council – led cross-functional teams for technical events and oversaw the planning and execution of tech-driven initiatives fostering innovation and strategic management.
- Participated in Smart India Hackathon (SIH) 2025.

## CERTIFICATIONS

- NPTEL – Software Engineering

## ADDITIONAL INFORMATION

- Hobbies: Cricket, Gym, Singing
- Languages: Hindi, English
